

Diego Fernando Rojas Carrillo

About

Hello!

I am from Colombia, I am a full stack developer with more than 700 hours of experience, I have knowledge in different technologies including React, Javascript, Node.js among others.

I am looking for a place where I can contribute with my knowledge and also where I can keep learning new technologies and keep improving my programming skills

I am passionate about technology, I like teamwork. And I hope to find a place where I can carry on growing as a programmer and also as a person.
